

EXECUTIVE PRODUCT BROCHURE

Turn Used-Vehicle Valuations Into **Faster Turnover & Protected Dealership Margins**

Built for multi-site dealership groups, used-vehicle (VO) directors, and remarketing teams. **VO-Manager IQ** unifies Autovista (JD POWER) professional valuations, live national and regional spot markets, and FastBack selling prices into a single decision platform.

USED-VEHICLE PORTFOLIO INTELLIGENCE

Margin protection, stock velocity, and multi-site governance.

01
Margin Protection

Purchase price, FastBack price, and book value, side by side.

02
Stock Velocity

A 0-100 score on every unsold car, regional and national.

03
Group Governance

Poles and roles, so each person sees only their sites.

EXECUTIVE PRODUCT OVERVIEW · USED-VEHICLE PORTFOLIO INTELLIGENCE

Turn Used-Vehicle Valuations Into Faster Turnover & Protected Dealership Margins

Built for multi-site dealership groups, used-vehicle (VO) directors, and remarketing teams. **VO-Manager IQ** unifies Autovista (JD POWER) professional valuations, live national and regional spot markets, and FastBack selling prices into a single decision platform.

01 · MARGIN PROTECTION**Eliminate Pricing Blind Spots**

Compare purchase cost, FastBack selling price (PV FB), B2B/B2C book values, and factory option residuals side by side to stop under-pricing or over-depreciating stock.

02 · STOCK VELOCITY**0-100 Resale Index Scoring**

Every unsold vehicle receives an automated Regional and National Resale Index (0-100) combining margin, age, mileage, and days in stock to prioritize daily re-pricing.

03 · GROUP GOVERNANCE**Multi-Garage & Role Security**

Organize branches into regional Poles and assign Superadmin, Admin, Supervisor, or Showroom Vendor roles so every team member sees only what their role permits.

EXECUTIVE KPI STRIP

Live Stock Volume, Brand Diversity & Capital

Top-level counters immediately summarize total active vehicles, number of represented manufacturers, and total Regional Stock Value in EUR scoped automatically to the logged-in user's garage permissions.

6-DIMENSION FILTERING

Drill Down by Technical or Eurotax Attributes

Combine free-text search (VIN, make, model, trim version) with dynamic dropdowns for Manufacturer, Fuel type, Body style, Model Year, and exact Autovista Natcode with one-click filter reset.

ERGONOMIC DATA GRID

Sticky VIN, Make & Model Columns

Engineered for wide automotive datasets: VIN, Make, and Model remain pinned on horizontal scroll while reviewing Engine Power (PS / kW), exterior color, New Gross Price, and FastBack Selling Price (PV FB).

SHOWROOM & MOBILE READY

Vendor Privacy Mode & Responsive Cards

On tablets and smartphones, the table automatically transforms into touch-friendly Vehicle Cards. When logged in as a Vendor, sensitive regional stock totals are hidden automatically.

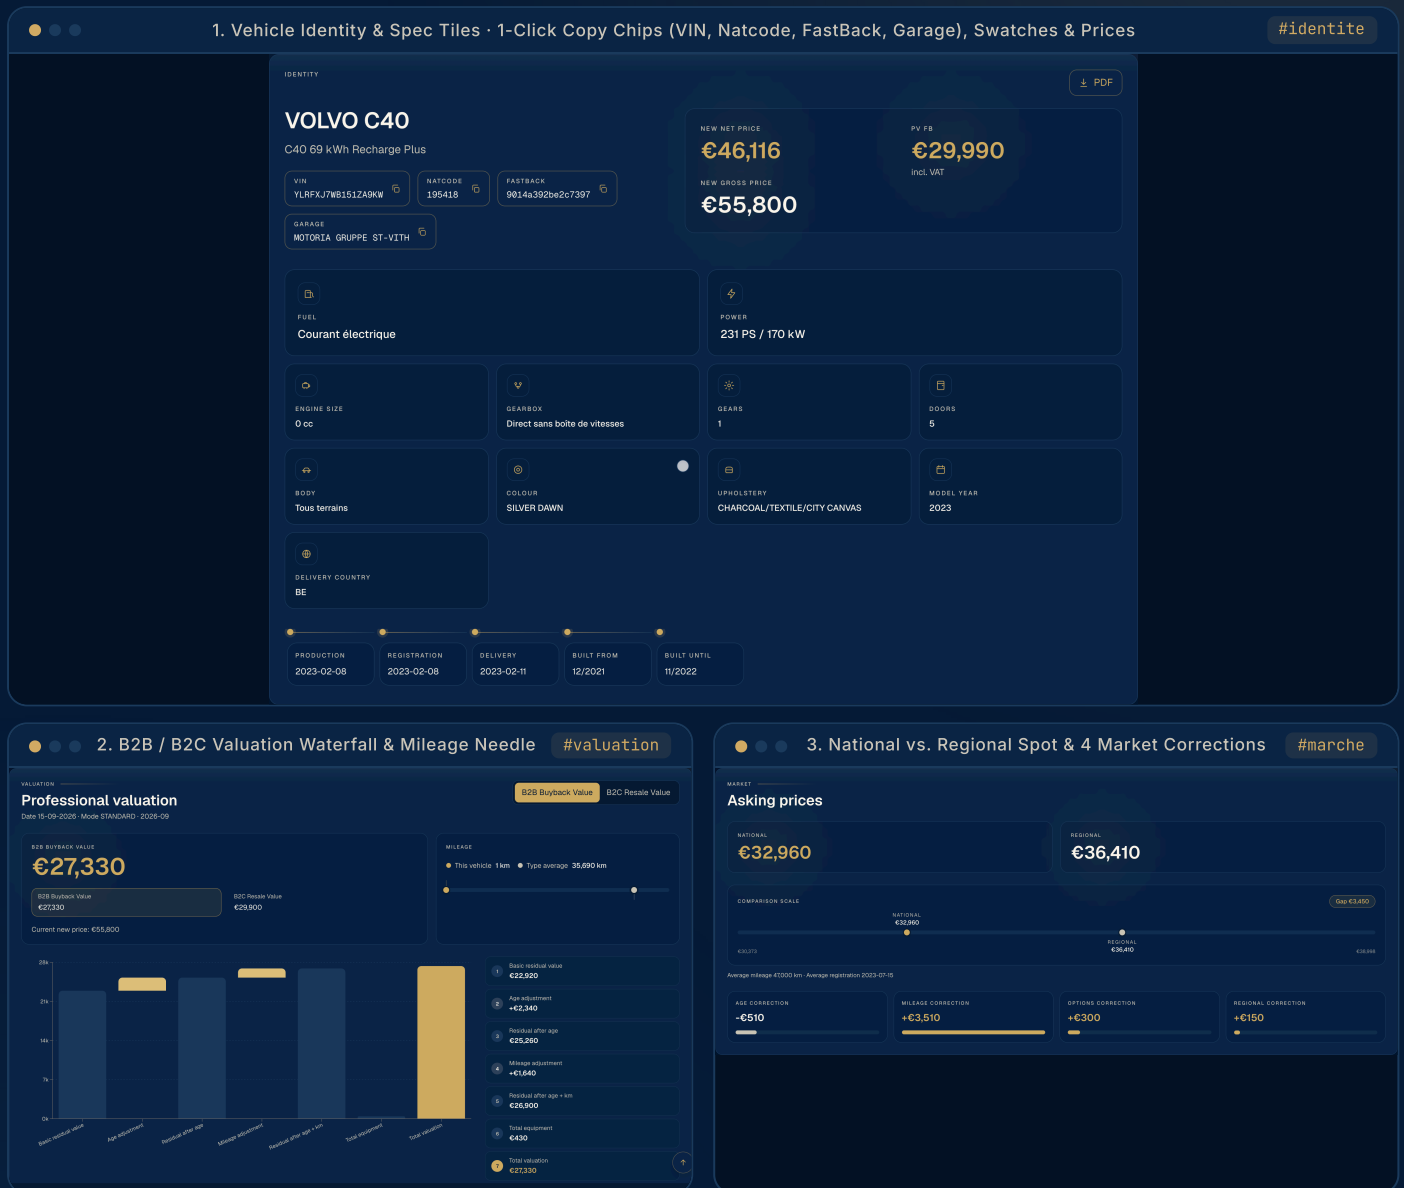

VO-MANAGER IQ · Unified Inventory Dashboard

Page 4 of 12

GRANULAR SINGLE-VEHICLE INTELLIGENCE

360° Vehicle File: Identity, Valuation Ladder & Market Spot

Clicking any VIN opens a comprehensive vehicle dossier that combines decoded Autovista specifications, interactive B2B/B2C valuation waterfalls, and regional vs. national asking price benchmarks.

DECODED IDENTITY & RAIL

Complete Technical DNA

- **1-Click Clipboard Chips:** Copy VIN, Natcode, FastBack ID, or Garage name instantly.
- **Price Triad:** Compare New Net Price, New Gross Price, and current FastBack Price (incl./excl. VAT).
- **Visual Spec Grid:** Fuel, PS/kW power, engine cc, gearbox, doors, swatch, and upholstery.
- **Lifecycle Timeline Rail:** Production, Registration, Delivery, and Build From/Until dates, plus HD Photo Lightbox.

7-STEP VALUATION LADDER

B2B Buyback & B2C Resale

- **Instant Mode Switch:** Toggle smoothly between *B2B Buyback Value* and *B2C Resale Value*.
- **Interactive Waterfall Chart:** Visualizes Basic Residual → Age Adjustment → Mileage Adjustment → Equipment → Total Valuation.
- **Dual Mileage Needle:** Benchmarks the vehicle's exact km against the segment average mileage.

SPOT MARKET CONTEXT

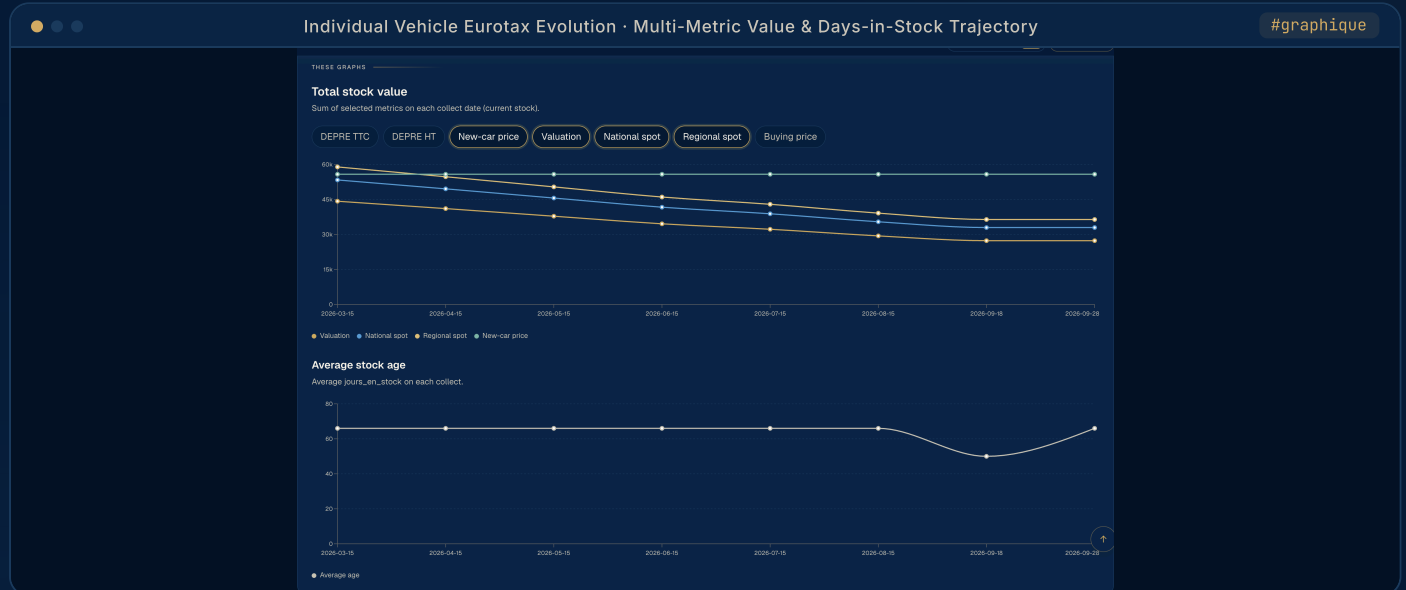

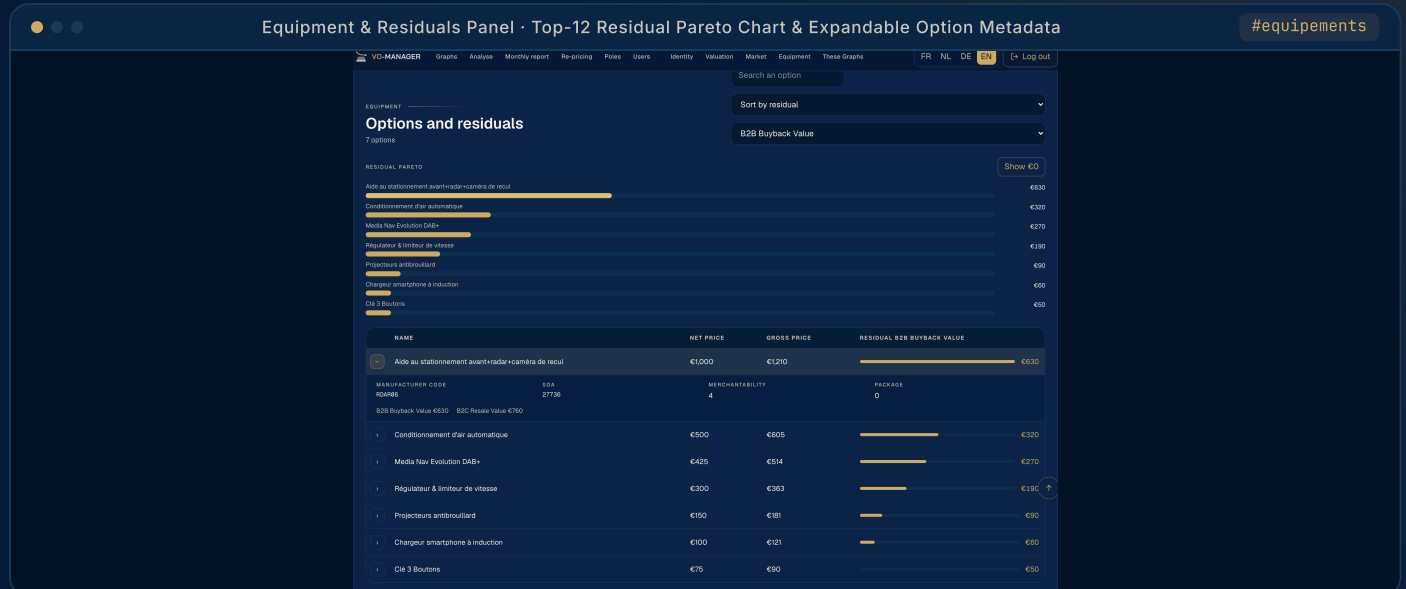

National vs. Regional Scale

- **Asking Price Scale:** Visual comparison scale plotting National vs. Regional asking prices and the exact EUR gap.
- **4 Market Corrections:** Interactive cards showing how *Age*, *Mileage*, *Options*, and *Regional demand* shift market value.
- **Segment Reference:** Displays market average mileage and average registration date.

CAPTURE EVERY EURO OF OPTION VALUE

Equipment Residual Pareto, VIN History & 1-Click PDF Sheets

High-value factory options often get lost during trade-in appraisal or retail pricing. VO-Manager IQ ranks every option by its real B2B or B2C residual value and generates branded PDF car sheets on demand.

OPTION VALUATION ENGINE

Residual Pareto & Deep Option Metadata

- **Top-12 Residual Pareto:** Horizontal gold bars immediately highlight which factory options add the most B2B or B2C residual value.
- **Smart Filtering & Sorting:** Search options by name/code, sort by Residual, New Price, or Name, and toggle *Show EUR 0* to hide non-contributing items.
- **Expandable Technical Rows:** Click any option to inspect its Manufacturer Code, SOA Code, Merchantability rating, Package Flag, and dual B2B/B2C residuals.

INSTANT DOCUMENT GENERATION

[GET /api/cars/\[vin\]/pdf](#)

Role-Adaptive Branded PDF Vehicle Sheets

Every vehicle page includes a one-click PDF button powered by an embedded vector PDF engine (Navy, Cream & Gold theme with embedded vehicle photos).

Manager / Supervisor PDF

Includes full Identity, New Net/Gross Prices, B2B/B2C Valuation Ladder, Market Corrections, Option Residuals, and Photo Grid.

Showroom Vendor PDF

Customer-safe spec sheet: includes Identity, Technical Specs, Option Names/Codes, and Vehicle Photos while stripping confidential valuations.

ACTIONABLE PRICING DECISIONS

Dynamic Re-Pricing & Proprietary 0-100 Resale Index

Unsold vehicles are automatically ranked by largest price divergence first. Managers evaluate Regional and National Resale Indices, select the optimal pricing strategy, and validate updates directly for FastBack.

FASTBACK VALIDATION WORKFLOW

Inline or Modal Price Validation

- 4 Pricing Strategies: Pick *PV FB* (keep current), *Regional Spot*, *National Spot*, or enter a custom *Personal Price (PP)*.
- Instant Margin Preview: Every option card dynamically calculates the resulting EUR margin and gap vs. regional spot (automatically adjusting for VAT).
- Single or Batch Validation: Validate cars individually or stage multiple price changes across the table and click **Confirm All**.
- ERP Push Ready: Validated choices are stored in `depre_repricing` for automated FastBack synchronization.

Filter by Validation & Score Category

Filter unsold stock by Make, Validated / Not Validated status, or directly by Regional / National Index tier.

LONGITUDINAL PORTFOLIO INTELLIGENCE

Historical Stock Graphs, Data Coverage & Fleet Mix

Track how total inventory value, depreciation exposure (DEPRE TTC / HT), and stock age evolve across every Eurotax collection snapshot - across the entire group, by brand, by garage, or by individual car.

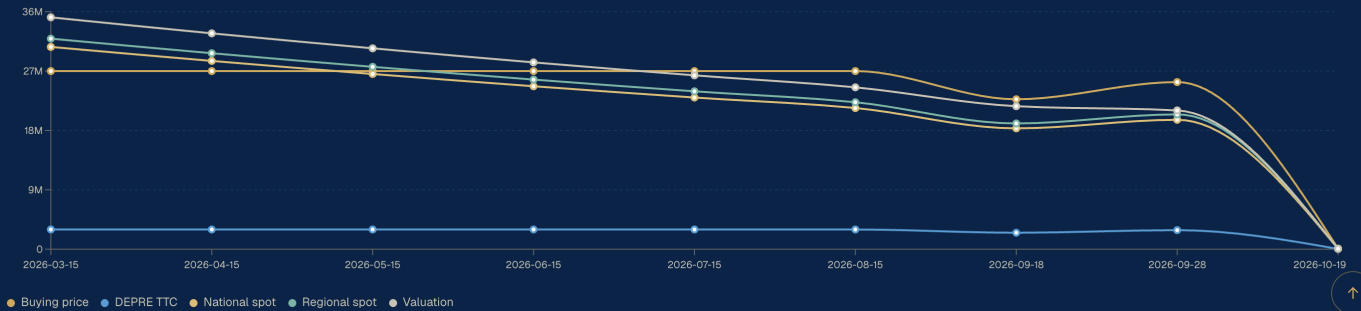

1. Portfolio KPIs, Autovista Coverage Health & Multi-Series Stock Value Evolution

/graph#vaLeurs

TOTAL VALUE

Total stock value

Sum of selected metrics on each collect date (current stock).

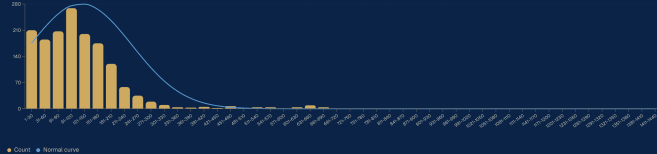

2. Average Stock Age & Gaussian Age Histogram #repartition

AGE DISTRIBUTION

Gaussian age distribution

Age histogram for the latest in-stock snapshot, with a normal curve.

1542 vehicles - mean 1274 d - std 185.3 d

3. Personal / Utilities & Fuel Mix Donuts (Count & EUR)

#mix-carburant

FUEL MIX

Fuel mix

Latest vehicles in this selection, grouped by Autovista fuel.

Vehicles

● Benzone (111, 72.0 %) ● Fuel (220, 14.3 %) ● Electrical (25, 1.7 %) ● Other (86, 5.6 %)

Autovista value

● Benzone (438,051,305, 81.1 %) ● Fuel (63,758,832, 16.4 %) ● Electrical (650,600, 2.2 %) ● Other (650,310, 0.3 %)

MULTI-DIMENSIONAL SLICING

All Stock, By Brand, By Garage, or By Vehicle

Slice time-series trends across the whole group or compare every garage as its own line on the same chart. Filter by Availability (*In Stock*, *Sold*, or *All*) and custom date windows.

STATISTICAL STOCK AGING

Average Age Trend & Normal Gaussian Curve

Track average days in stock (`jours_en_stock`) across collect dates and inspect the current stock age distribution fitted with a statistical Gaussian bell curve (showing vehicle count, mean days, and standard deviation).

7 FINANCIAL SERIES & PER-UNIT RATIOS

Total Capital & Average Vehicle Value

Toggle chips for DEPRE TTC, DEPRE HT, New-Car Price, Valuation, National Spot, Regional Spot, and Buying Price on both Total Value and Value-per-Vehicle Ratio charts.

COVERAGE AUDIT & DUAL MIX DONUTS

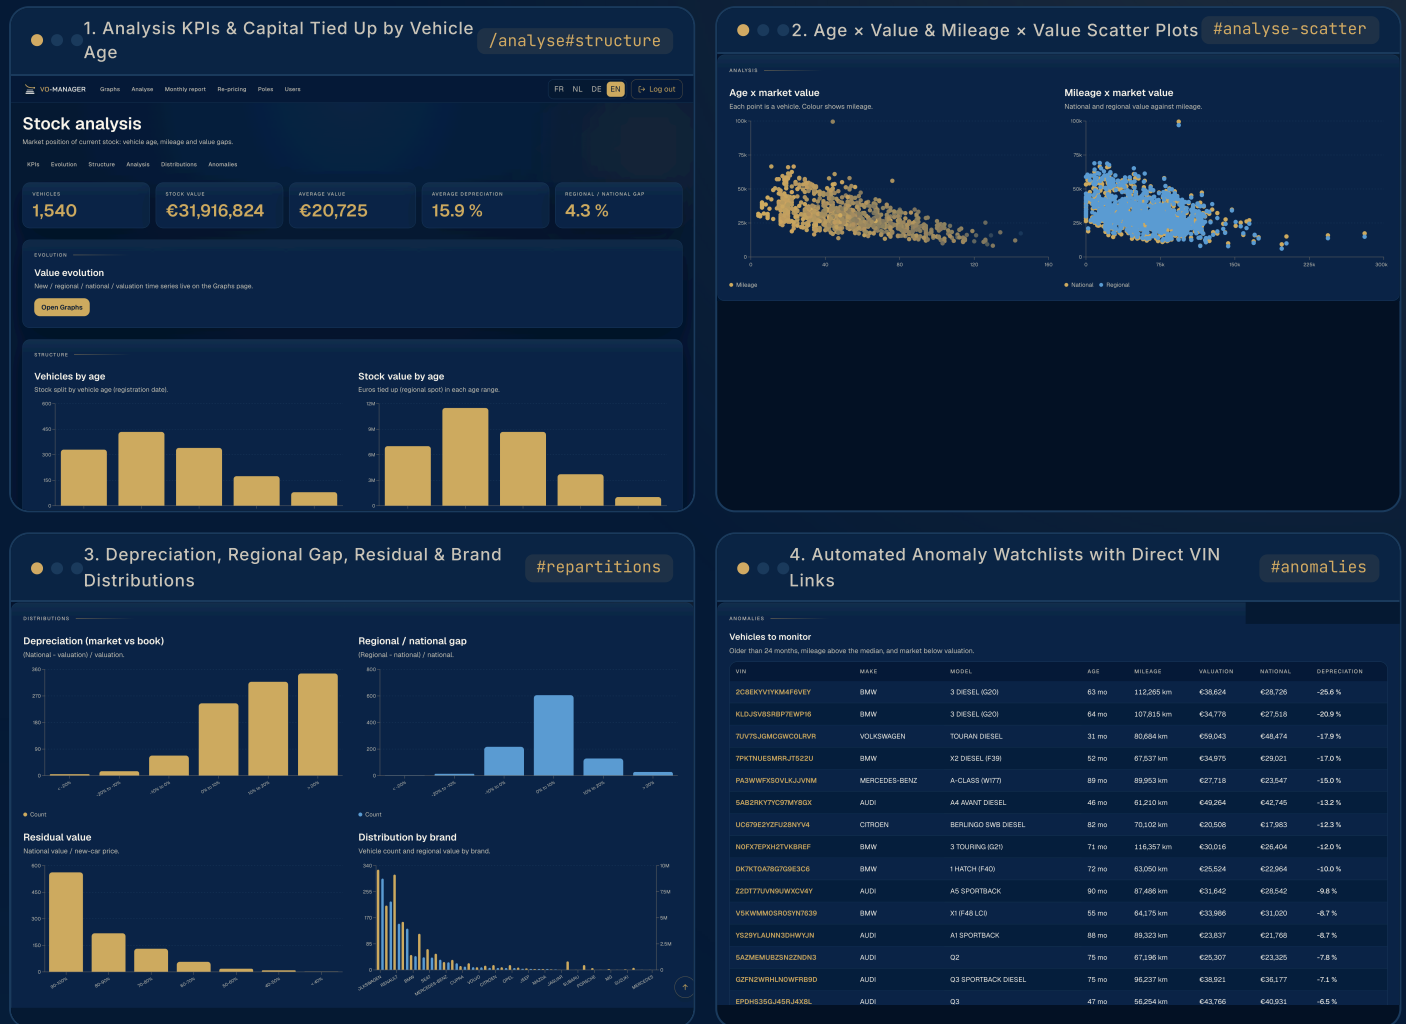

Data Completeness & Portfolio Balance

Monitor missing valuations, missing spots, and sysinfo diagnostic counts alongside dual-donut breakdowns for **Personal vs. Utilities (VP/VU)** and **Fuel Mix** (Benzine, Fuel/Diesel, Electrical, Other) by both unit count and EUR value.

PROACTIVE RISK & POSITIONING ANALYTICS

Deep Stock Analysis & Automated Anomaly Detection

Understand exactly where your capital is tied up by vehicle age and mileage, visualize market positioning across the entire fleet, and automatically flag outliers that require management intervention.

4 AUTOMATED RISK WATCHLISTS (ZERO MANUAL FILTERING REQUIRED)

Click any flagged row to open its 360° Vehicle File

1. Vehicles to Monitor

Multi-factor alert: vehicles older than **24 months**, with mileage **above stock median**, and National market value **below book valuation**.

2. Book vs. Market Gap

Flags vehicles where the absolute divergence between National asking price and Autovista book valuation exceeds **±20%**.

3. High Depreciation

Isolates vehicles whose National market value sits more than **20% below** their professional Autovista valuation.

4. High Mileage Outliers

Automatically lists vehicles above the **75th mileage percentile** of current in-stock inventory for targeted remarketing.

FINANCIAL AUDITABILITY & ENTERPRISE SECURITY

Monthly Accounting Reports, Regional Poles & Role Access

Generate audit-ready monthly depreciation summaries by age band and garage with one-click Excel export, while governing multi-site access through flexible Garage Poles and a 4-tier permission model.
